PTSA Mission: Make Every Child's Potential A Reality!

Paving the Way Together Annual Fund: 10/19 – 11/13

WHY are we raising funds? PTSA and ASB are active in very different ways this year, but are dedicated to making our student, teacher, and parent experiences the very best they can be.

Especially in these unusual and difficult times, we want to provide impactful educational and community building programs to help our students and families thrive. Thus, we are kicking off our Annual Fund drive that will benefit both PTSA and ASB at Leota Middle School.

This year we would like to continue offering grants for the classroom, library, special education, WEB Leaders, staff appreciation, Career Day, Science Olympiad Club, Math Olympiad Club, 8th Grade Party, and ASB programs. These only happen through amazing volunteers and donations from our community.

We thank everyone for their generosity whether it is a donation, being a volunteer or an awesome community member. It is completely understandable if a donation is not possible at this time. Most importantly we wish all our Leota families to stay safe and healthy.

WHY are PTSA and ASB combining forces? Because we want to make it clearer and easier than it has ever been while slashing the cost to raise funds by over 90%.

How Can I participate? There are two ways to participate. Option 1 is able to accept membership + sponsorship + Corporate Matching + Donations through the www.leotaptsa.com

website. For Option 2, a separate website has been set up on a platform called 99pledges that will accept donations and allow you to engage friends and family to participate. On Monday, October 19, each family that has not opted out of information sharing will have a link sent to them

The Science Olympiad is not classroom or a teacher-led activity. It is a student-directed, parent-mentored activity. Parents should be prepared to assist with their child's participation. Possible activities include: scheduling study time, finding new/enriching resources, purchasing supplies, perfecting designs, arranging meetings with local experts or hosting build parties. Coordinating efforts between similar events is encouraged and at the parent's discretion. Parents and students will be asked to agree to a Code of Conduct to participate.
